Michael Eusebio

Davenport, FL | 727-294-7196 | mykeyraye@gmail.com

PROFESSIONAL OVERVIEW

Technical support and customer service professional experienced in troubleshooting PC hardware, software, connectivity, and business applications. Supported 20+ clients weekly, investigated user-reported issues, documented and followed up on technical tickets, and coordinated with IT and engineering teams. Comfortable guiding users through solutions in person or remotely using TeamViewer.

PROFESSIONAL EXPERIENCE

Client Liaison | The Storage Group (Remote) | Jan 2025 - Oct 2026

- Supported 20+ business clients weekly with software, website, account access, and AI tool issues; explained troubleshooting steps and next actions.
- Investigated client-reported problems and created or escalated 10-20 technical tickets per week through Monday.com and HubSpot.
- Tracked open issues, documented findings, followed up with clients, and coordinated resolutions with engineers and developers.
- Led daily Zoom meetings to kick off projects, discuss technical issues, and review website progress.
- Tested AI chatbots, phone agents, and website updates; reported defects and verified changes with technical teams.

Customer Service Representative | USA Esports Network | 2023 - 2025

- Troubleshot Windows gaming PCs, computer hardware, software, and internet connectivity issues for customers.
- Provided remote assistance through TeamViewer, walked users through solutions, and escalated more complex issues to IT staff.
- Communicated clearly with customers during troubleshooting and helped restore computer and gaming station functionality.

Digital Marketing Specialist | M2D | 2020 - 2023

- Maintained WordPress websites for business clients and diagnosed hosting, browser, and website functionality issues.
- Investigated and corrected website problems using HTML, CSS, and JavaScript; supported client requests and site updates.
- Configured Google Analytics and reviewed performance information to help identify technical or usability concerns.
