PROFESSIONAL OVERVIEW

Technical support and customer service professional with experience helping businesses troubleshoot and resolve software, website, and connectivity issues. Supported more than 20 business clients per week, led daily Zoom meetings, and worked with engineering teams when issues required further attention. Experienced with remote troubleshooting through TeamViewer and documenting technical issues in Monday.com and HubSpot.

PROFESSIONAL EXPERIENCE

Client Liaison | The Storage Group (Remote) | Jan 2025 - Oct 2026

- Supported more than 20 business clients weekly with questions and issues related to rental software, websites, and AI tools.
- Facilitated daily Zoom meetings to review client concerns, explain updates, and agree on next steps.
- Investigated reported problems and submitted or escalated 10-20 technical tickets per week using Monday.com and HubSpot.
- Tested AI chatbots and phone agents, documented issues, and worked with engineering to resolve them.
- Worked with developers to keep clients informed about website changes, outstanding issues, and project priorities.

Customer Service Representative | USA Esports Network | 2023 - 2025

- Assisted customers with computer hardware, software, and internet connectivity issues.
- Troubleshot issues remotely and walked customers through solutions using TeamViewer.
- Explained technical steps clearly and involved the IT team when issues needed additional support.

Digital Marketing Specialist | M2D | 2020 - 2023

- Managed WordPress websites for small-business clients and troubleshot hosting and website issues.
- Updated and debugged website features using HTML, CSS, and JavaScript.
- Used Google Analytics to check site performance and identify areas for improvement.
